

Leep. Aug. 24, '10

Dear Dr. Kennedy,

I find that I measured the Heald's
Pond elm on the 15th of March, 1892, & then
made it 17' 11" at 3 ft., 17' 4" smallest girth,
spread of limbs 100 ft. Was with C. E. F.
on that day.

A list of big trees in N. E. issued by the
Horticultural Society in 1892 gives this
elm as 96 ft. in height, 135 ft. spread.

I have the girth of an elm in Sudbury, Que.,
Dec. 8, 1891, 18' 2" smallest girth; two elms in
Greenington, 1887, 18 ft. at 5 ft. from ground;
Great Elm, Sheffield, June 18, 1888, 18' 6" smallest
girth.

Truly yours
W. S. Saxon

Faxon, Walter. 1910. "Faxon, Walter 24 Aug 1910." *George Golding Kennedy correspondence*
