

**Office of H. N. Patterson,**

BOTANICAL PRINTER,

OQUAWKA, ILL., March, 1886.

DEAR SIR:

If enough orders are received to pay for an edition, I will undertake the publication of a

**List of North American Plants,**

in large type and on good paper.

The enclosed sample will show the proposed size of type and page, and quality of paper.

The catalogue is designed especially for use as a herbarium list, and the genera and species will be printed in alphabetical order—the most convenient for ready reference. The list will be made as full as possible, and a blank below, equal to at least one-tenth the space occupied by species now known, will be left for the addition of new species.

It seems to me that at least one list, for the purpose of checking the plants in his own herbarium, will be needed by every botanist who has a collection.

Price, \$1.75 per copy. If enough copies are subscribed for in advance to warrant a reduction in the price, it will be made.

Whether you desire copies of the list or not, please return, soon, the enclosed postal card, so I will know that you have received this circular.

Yours, H. N. PATTERSON.

Patterson, Harry N. 1886. "Patterson, Harry N. Mar 1886 [circular]." *George Golding Kennedy correspondence*
