

26 Oct. 1958.

Dear Dr. Kennedy:

I am sorry to say that the accentuation procera is a pure case of error on my part. I am anxious to have all such matters duly noted so that they may be corrected in any subsequent impression which the publishers may make of the Manual. You do not mention the genus under which you found procera and I do not at the moment recollect just where the name occurs. I should be grateful if you would let me know in order that I may make the proper annotation.

I tried to verify each name where the pronunciation was doubtful but in the pressure of many things to do in regard to each batch of proof I must have slipped over the name in question.

Thank you heartily for calling  
it to my attention.

With kindest regards, I am

Sincerely yours,

V. B. L. Robinson.

Dr. George G. Kennedy.

Robinson, Benjamin Lincoln. 1908. "Robinson, Benjamin L. 26 Oct 1908."
