Dear Dr. Kennedy:

I'm delighted once  
more to see your hand-  
writing and to have  
the good times you and  
Mrs. Kennedy are having  
right along.

The last winter has  
been a very hard one  
for us, through the long  
doubt as to the recovery  
from my illness after  
a systemic infection  
following appendicitis.  
But I am just home  
from a two months' run  
in tropical Mexico with him  
and he is perfectly well, so

Will have to search long  
and in chosen circles to  
find happier people than we  
are. And then, too, Mrs.  
Kennedy may like to know  
that last June Mrs. Julian  
undertook the rearing of  
a fourth son - and she  
is pronounced to be a  
fine baby.

Alas! There is little  
hope here for a builder  
for the Harvard herbarium  
building. We, too, are  
in sad straits for build-  
ings - and I have been for  
some times.

I shall look up the  
Atkins Fairmore matter

and see if I cannot  
put you in touch with  
the right man, though  
just now I can't do so.

Of course repetitions  
are stale to you and  
Mrs. Kennedy. But we  
are hoping that you  
are going to at least  
look at ours and that  
we shall see you when  
you do so.

Most affectionately  
me in wishes for all  
that is good, for you  
and yours.

Sincerely,

Wm. Brewster.
