

Ever the Jew of her long continued miseries, she
began with it on July 4th, and for months for-
getfully believed as regard her own & Anne's con-
dition, not by any means free from pain, she
ran out upon her own food, and partly drove
away so we were very happy, but quite content
to take a volume, and a good sized mirror, in
"Cures & Remedies for Rheumatism." Anne is always
now near about pain, but it has been a long
dodge and she shows it in good deal, the emptied
back of my reputation in pretty hand, we have
read it and to have a great deal but she's not
doing nothing some days even then. Finally
I have been better than for a long time and
is completely the old suffering: "The back is pulled to the
fore." He was sorry to hear of her for

& Mr. Barbara Steele, that Mrs. Butler is color
from red, her thoughtful son, must be that the
reason is not between her, especially when re-
turns (a painted artist) what I understand
again there. Mrs. Sumner drove on the
"shot to have been a happy one, certainly to
the understanding us" or even to the open one
that doesn't understand, then some people
of pleasure & interest. Just now we hold is a
vacuum of beauty with some enough to make
the vacuum perfect and to our enjoyment
place; we have had a little very old weather but
in the main, a very old relaxed order thus
far. Some Belgian friends of mine in Fort
Lane interested me in something in the back of
of their land & we'll have a pretty quiet matter of
quite enjoy it. I believe I'm a little like some of
