

Nov. 22. 1897

Dear Mr. Deane:

I was much pleased to hear from you again & very gladly send you such of your desiderata of Vermont plants as I have in duplicate. Some are scraps, but you asked for such if I had no better. I have added to your list of Vt species in the two orders that you are studying, as your requested: but my list of addenda is so large I fear it includes plants of which you have already seen Vt. specimens. Several are in my herbarium mounted, but no duplicates. Any of these I should be willing to send for your study - to be returned. I send them for your own herb. or for the N.E. Bot. Club, as you may choose. I shall want soon to ask for your help on my list of Naiadaceae & Cyperaceae (except Carex) for the Club.

I send a specimen of Rose for you to study. I think it a new species for New England. I have called it Rosa Sayii. I wish you would compare it with specimens in Herb. Gray recently named by M. C. Peck.

I spent eight weeks of the summer in the Sierra Mts. & in the Canadian Rockies. I have perhaps a thousand species to show for my trip. It was a glorious trip.

I shall be in Boston during the holidays. But I may not have very much time for Botany, as I expect to be married at the close of the present term. I hope however that you & Mrs Deane may be able to call on us while there. With kind regards
Yours truly, Ezra Brainerd.

Brainerd, Ezra. 1897. "Brainerd, Ezra Nov. 22, 1897." *Walter Deane correspondence*
