

[from H.L.]

Middlebury Vt. Aug 29<sup>th</sup> 1921.

My dear Mr. Deane:-

Your letter of Aug 27 just rec'd  
Yes I am fairly well but terribly busy. Mrs. Brainerd  
has been for several weeks abed from "congestion of the  
left lung." 3½ pints of liquid serum were taken from  
the pleural cavity, & she has since been under the  
care of a trained nurse. She is now slowly improving.

Send on the 6 violets from Miss Sheppard & I will  
do my best with them. I should be glad to get the  
Vol. you offer of *Fumace Variorum Shakespeare*, -  
*Richard III* was w't. which I see is lacking in any library.

Am working up an account of the three rarest  
of western Violets: *V. Trinervata* Howell, *V. Flettii* Pipew.  
*V. septans* Robinson (Mexican Border) All the specimens  
of these in the Nat'l Hb. have been sent me. It is a  
fascinating task, but - a task, I assure you.

Kind regards & best wishes to you & Miss Brown

Faithfully yours Brainerd.

OVER

My Brother, Dr. John Brainerd, has had a hard time recovering from a surgical operation on a growth near the left eye. He is just getting around again, & may motor up this way. This reminds me that I have never replied to your kind offer of a photo of yourself & a humming drinking out of a glass held in your hand! I wonder what was in the glass!! Should be much pleased to see this remarkable picture, either in sepia or in black, as you may decide.

The violet work is finished, except the 3 species now in hand,

Yours E. B.

Brainerd, Ezra. 1921. "Brainerd, Ezra Aug. 29, 1921." *Walter Deane correspondence*
