

Santa Cruz Cal Jan. 5/75-

Mr. Geo. E. Davenport,

Dear Sir,

I have worked all getting my ferns in proper shape and making up a package for you, and have just finished when your letter came to hand with some little gems of ferns, also announcing your change of residence. I had not thanked <sup>you</sup>, or even ack<sup>d</sup>, if I remember, your collection sent me some months ago. Please accept my sincere thanks for these favors!

I send pretty much all my duplicates of home ferns. *Pellaea androm.* I have not at present. *Pteris aquil. var lanuginosa* I have plenty of and will send soon I forgot to put it in this pkg. I send a few spec. of *Asplen. filix-femina* showing how hard some times it is to distinguish from <sup>an</sup> *Aspidi-*  
*um*. *Lomaria spicant* is scarce here at least the fruiting fronds. I send all

I have... I send a catalogue with spec.  
in my herb. marked —. When convenient  
should of course like any desiderata.  
I have not had time to mark the  
specimens but there is nothing save what  
I have sent before. — *Chilanthus* Cal.  
I will try to get at the proper season,  
which is in March or April I think.  
Living plants for Dr. Hooker. Should I have  
time will try to send such as he may  
want. But I suppose he already has  
most of our Cal. species.

I put in <sup>this</sup> a small bit of one *Ptilis* to see  
if it is the variety you wish. Sorry I  
left it out of the package. When I get  
more *Pellaea androm.* will send both  
A Happy New Year!

Yours Truly  
E. L. Anderson
