I hope that I have to be
 about 2000 with a large
 of remainder and the
 name *Leuca - deca*, or *ma-*
deca, or *cutting*, or *cutlens*
 or *cut* or *cut* -
 of gardens in *Leuca - deca*
 for the first of *Leuca - deca*
 which I will send for
 you - *Leuca - deca*, *Leuca -*
 Very truly
 Elizabeth B. Davenport

#5 Green St. Braintree St.
 My dear Mr. Davenport:
 I will send you, by
 express tomorrow, a bundle
 of ferns. Collected them in
 one of my much loved
 spots, a woodland swamp
 full of hummocks where
 old tree stumps are buried
 & rotting & covered with
 a tangle of treasures, &
 every sunny spot covered

with - Raspberry bushes.

One root (on which I have traced
a trace) indicated me much -
the principal superior & inferior
forms of lower forms ~~etc~~, distant -
forms etc. I did not examine
root to see if smaller plants -
were off shoots, but one felt as
though it were. I thought I
would not disturb the root be-
fore sending it to you.

If possible I always come home
over the hill, just to look at the
beautiful A. clemens. So early I
collected some thinking you might
like them for your fern garden.

I have put in two roots -
A Spinulosum. Will you tell me
if I may hope to find better
representations of the type, &

I have never yet found what
I called one fully as type. Some -

Davenport, Elizabeth Braxton. 1902. "Davenport, Elizabeth B. [1902]." *George Edward Davenport correspondence*
