

W. H. H. Nov 2 1878

Dear Mr Davenport

In regard to the original paper on
forest trees. I would say that the
printer wishing it short. I agreed
to shorten it, and sent it to him
never thinking of again wanting it
or of saving it for future use.
I send you a spec^r of Mr Stout's
C Elegans. I had two and was intending
this for Wellesly College, but will give it
for your Coll in the Host Rooms.
I also enclose Mr Stout's letter, wh
is hardly decided enough. It is a way
peculiar to Prof Eaton, to leave one in the
dark. Although I have C Elegans from Green-
houses, I am unable to decide, the outline
and color is the same but the scales on this
are longer and more acute. I should

really like to meet the club and talk
over botanical matters, but not to read
a paper. And as it is, perhaps it would
be best to drop it and say no more about
it to the club.

Yours Truly
Wm Edwards
