R. W. THATCHER, DIRECTOR
U. P. HEDRICK, VICE-DIRECTOR

December 5, 1924.

Mr. Walter Deame,
29 Brewster St.,
Cambridge, Mass.

Dear Sir:

We want to build up our herbarium of pomological and other esculent plants. Just now we are especially anxious to secure specimens of Rubus, Ribes, Fragaria, Vitis, Prunus and Pyrus. Professor Bailey tells me that you may have duplicate plants for sale of some of these genera and if not that you might offer us some next fall. If you have such material on hand, will you let me know what and what the charge for it may be.

Very truly yours,

U. P. Hedrick
