

St. George Utah

Jan. 4th 1876

Geo. E. Davenport,

Dear Sir,

Your letter of the 22nd inst.
Just rec'd, & contents noted. In
reply, would say that the two
Notholena's you want, Parryi
& tenera, are both collected by
me in considerable numbers.
They were somewhat shrivelled
up, owing to the lateness of
the season. A few hours previous
to the arrival of your letter, all
my collections were forwarded to
Prof. Gray.

In the collection
made by me in Southern
California, is several species
of ferns. You may consult

Prof Gray; whatever arrangements you make with him for specimens of ferns will be satisfactory to me.

I shall leave this place in a day or two, for San Bernardino. Should I find any of the ferns you desire it will give me pleasure to communicate with you ^{Regarding} ~~the~~ the same.

Yrs Very Truly
Edward Palmer
