Dear Friend Dean

A happy New Year!

Thanks for plants received few days ago. They were very satisfactory. Send you few achenes of *P. sagittata* could not spare any more as I was too late for the fruit and got only 2-3 specimens.

Beardslee's address is Cleveland Ohio 107-6th Av. Well I am very busy through mounting and putting a shape my summer's collection only few correspond more to hear from. The collecting and field work fever has already put in its symptoms and I suppose in March it will be up to 110°F.

I never have felt so strong as I
have this fall for all of my hard
work last summer, for the last four
years I have been laid up every
fall with varicose ulcers but this
fall I have been O.K. and feel
like putting in a whole season
of calving if I get the right
kind of ~~work~~ place to work
up.

Let me hear from you occasionally
Yours ever friendly
