

We expect to reach N.Y. Saturday May 23<sup>rd</sup>, and shall be as usual before Mr. Wood Cutting at John Volney Washington Sq. for a week or two - Sois go off for the Museum before Mr. Wood Cutting

Paris

Apr. 24/25

Hotel Lutetia,

April 23, 1925

My dear Walter,

Many happy returns of this lucky day, 77, two lucky numbers. When you came into the world I was a lusty youth of nine months. How little either of us imagined in our younger days that we should attain to this advanced age, and yet how strange it is that we do not feel as old as we ought to .

In amonth or so I hope to see you, as well as Mary and George and shall try to tell you some of the delightful experiences we have had. We spent two delightful weeks in England recently and particularly enjoyed two days at Stratford-on-Avon where I secured some cards for you which you may not have in your collection.

My son's wife and our grandchildren sailed for America April 9th and we will probably spend the summer in the neighborhood of New York where my son's business keeps him at present.

Since they have gone we have been "doing" Paris and are enjoying every day, but are looking forward with the greatest pleasure to living in real American sunshine which we have not had in France.

Thank you for your good letter telling me all about the Shakespeare Club. Mrs. Scudder joins me in love to you and our dear friends at No. 80.

Always affectionately,  
*Christina*
