

Dear friend. How would it do to remove  
the numbers entirely from the plates. I had  
them put there so as the binder would make no  
mistake, but as there will be so few copies of  
the book printed I could arrange the plates for the  
binder. If you should think I ought to make  
any of the plates over, say so, and send me  
your suggestion. This book must be perfect, at  
least as near that as possible. I will not grudge  
the work. I suppose you have noticed how I  
have A. Goldieum. There is some more of my  
very smart printer. My ~~name~~ was all right, but they  
picked up some old botany and changed, after I  
had checked the proof. The vargenicum in Index is  
of the same class of errors. Yours friend. F.W.

I have just called my hands on your
