

Washington D.C.
June 23rd /89

My dear Deane:

Your card came just
as we were leaving.

We arrived in W. Wednesday
and I reported at headquarters at
once. Dr. Vasey was much pleased
with my work & has intimated
that a similar trip is not far
in the future.

Yes it was the "Agriculture Grasses
of U.S." I had in mind.

I bought home some of Lepidium
nutans and found we only had specimens
from the Philadelphia station.

By the way I have just received
the official announcement that Wabash
College has given me the third
degree (Ph.D.) in course.

Had you heard that the
Western Botanists were forming
a "Trust." Baerdegger & Mrs. Curran
have united forces for life.

The public announcement has
just been made that our friend
Coville is engaged.

Miss Vasey was much pleased
with your shadow.

If any thing of interest comes
in I will remember you.

Mrs. Rose wishes to be remembered
to you & Mrs. Deane.

As always
