

Washington D.C.
Nov 27/89

My dear Dear:

Your card just at hand.
Dr. Vasey will send you the grasses
soon.

You seemed not to understand me about
J. Donnell Smith. We have dedicated a
new genus to him; the plants are now
in the hands of Foxon & we will have
a fine plate. I will soon have ready
an other interesting plate both of which will
be sent to you.

Either Dr. Vasey or I will be up to
Cambridge in two or three weeks. I
hope to see you.

Prof. Coulter has just spent a
week with me. Look out for
more Umbelliferae in Nov. Bayette.

and also in Col. Acad. Proc.

Mr. Canby spent a day with me last week.

I mean to write very soon again.
Mrs. Rose wishes to be remembered to
you & Mrs. Deane.

Very hastily
J. W. Rose
