Washington, D.C., Feb. 27, 1897.

Mr. Walter Deane,

Cambridge, Mass.

My dear Mr. Deane:-

I suppose you have received all those books requested in your last postal card, except the Cotton Bulletin. I cannot get this for you until the new edition is ready. I think I sent you in addition the last report of the Secretary of the Smithsonian Institution.

Will you please look into your bundle of Tiedmannia at T. terebifolia. The specimen sent out by Mr. Canby from Ellendale, Delaware has very different fruit from the one which comes from Florida and thereabouts. My Delaware plant is without root or root leaves. Let me know what you find in your herbarium. When you are at the Gray herbarium next time will you look up the material there also? Do not make a special trip for I am in no hurry.

Yours very truly,

*J. N. Rose*
