

Providence - Aug 27, '03

Dear Deane, I will pocket your card and
consult with my Better-ho- Shirts, who will
be at home on Saturday next, I think we can
find just the place, but I want to see her about it,
I feel like Sir L. Lytton, but not for the same reason,
down in the month. A very slight chill used me up, as
does a session at my desk, But I had a royal time
at the Point, it was worth while to meet, know, and
bottle up with Dr Volney Howard - the secret of men-
into the intellect of science and description, I had a note
from him today, He & Denton had been up to Erie N.Y.
confirm my Galton's Locality of Spectrum. Didst find it,
Also found from Collins - who is at N. Andover, Maine. The
question is getting ready for us for series of papers -
