

appreciation

Thankfully yours

Robert Ware

246 Devonshire St.
Boston March 29 '915

My dear Mr. Deane -

I am gratified that any
of my modest collection should
mean "delightful" any part of
your day. Thank you for
your inspection and report -

May retain any of the plants
which you would like -

I think all my material is
with you. Living as we do
it is very inconvenient to
provide for accumulating material
so that I retain very little
except that which I have in
my herbarium cases ^{of the dry except my} _{herb.}
But please do me the honor

of retaining what you like to
have.

I have been working over my
Jems somewhat diligently the
last month or two - doing some
rearranging, etc - I find that
I have some 300 to 400 sheets
of the Pteridophyta mounted -

Though I lack some fine
species - what I have gives
me a somewhat broad outlook
over the field which is very
interesting to me.

Dr. Brainerd has recently
sent me his Mexican species
book over - and I am trying
to get into order a lot
received from Jamaica
during the last two or three

years - It's very absorbing -
but slow, hard work for
my untrained faculties -

We look back upon our recent
evening with you two with peculiar
satisfaction - as we do all
visitations with you. They are
of the sort which leave their
impression upon our memory -
and which we value as something
permanent - reflecting as they
do a relationship which is
very sweet and welcome
We would have seen them
this - in a day when so many
things are left unpaid which
might find expression to us

Ware, Robert Allison. 1915. "Ware, Robert Allison Mar. 24, 1915." *Walter Deane correspondence*
