

C. A. WEATHERBY
11 WELLS AVENUE
EAST HARTFORD, CONN.

11/2

Nov. 23, 1924

Dear Mr. Deane:

The specimens of Wordsia
scopulina will finally go to you tomorrow
morning. This is much later than I promised,
but from catching cold or some other reason,
I got my Cambridge indigestion back in a
worse degree and have had to leave out
all but necessary things during the week.
The things left out included yesterday's
game: but in view of the weather and
the result I can look on that omission
without regret.

The occurrence of Wordsia scopulina
in the southern Appalachians and in the

YERGENIA W. W. W. W. W.
11 WEST AVENUE
EAST HARTFORD, CONN.

Ozarks (where it has been found
within a year or two) at isolated
stations far south of its range as given
in the Mammals, is rather remarkable.
Specimens of it from those regions
possess unusual interest in consequence;
that was why I wanted you to loan
some of them.

I hope all goes well with you. Cord-
ial regards to Mrs. Brown
As always

C. W.

Your card has just come. I am glad
the "barometer" works. It is rather an
amusing idea -

Weatherby, Charles Alfred. 1924. "Weatherby, Charles Alfred Nov. 23, 1924."
