Dear Mr. Deane:-

I sent you this morning the two supplements to the Connecticut Flora which I promised you some time ago. They bring our record up to date (so far as it has been published on at all) except for such notes (like the recent one of Himeswells) as may later come along in Rhodora.

As you probably know, Fernald came down and lectured to the Connecticut Botanical Society at its annual meeting Saturday. He spent the night before with me; and at New Haven, gave nearly the same talk that you and I heard him give at the Appalachian

Club, except that it had rather more botany in it. He did it my
will, as he always does and it was like old times to have him
with us again.

Did you see the supplementary eclipse - partial of the moon -
last night?

Thank you for the two post-cards; it's always good to hear
from you.

affectionately yours

Alfred Weatherly
