Dear Mr. Deacon:-

It was good, as always, to hear from you and to know that things are going well as usual with you - and that, long as you have been going to Shelburne, there are still new or interesting things, like the yellow *Cypripedium*, waiting to be found.

Judging from your letter, I must have said something which led you to suppose that I was definitely planning to visit Shelburne. I wish I could so plan, but all that I meant was that I would make you a call if there were any possible chance to do so. Just at present I am very getting ready to start for Canfield tomorrow, via Newport, and the letter to the wife of Miss Fisher who is here on a little visit. I shall be in Canfield July 13 to Aug. 1; and with that end botanical meetings on Aug. 8<sup>th</sup> and 10<sup>th</sup>, probably, it looks as if I might have a busy summer.

I have picked out of Mr. Bisell's books a few local flora of Connecticut for the N. E. B. C. library. It has now 7 titles now. They are all small pamphlets (except one title of something long, which is bound) and will take up much room. I enclose a list of them. As they specified they are

the gift of Mr. C. H. Bissell, Southington, Conn., a widow? her husband, C. H. Bissell. He, you know, was a non-resident member of the Club elected in 1898, and for a long time was a frequent attendant at its meetings.

If you, as librarian, feel like writing a little note of thanks to Mrs. Bissell, I am sure she would appreciate it.

I have included with the Connecticut files three year-books of the N. E. B. C. which I understand you would like to have.

Now I must go back. This goes in two and good wishes to you both.

Fancy, as always,

C. A. W.

I forgot to say that I am taking the pamphlets to Cambridge with me and will leave them there for your attention when you return.
