

Salisbury, Conn.
May 17, 1927

Dear Mr. Deane:-

I was much interested, even if I have been a long time saying so, in your account of your trip to Mt. Holyoke. I'm glad everything went so well. That you had so good a time and saw so much of Massachusetts.

As for me, I've been busy on the farm - planting the garden, weeding and lining up flower-beds, recovering screen doors, etc. Some of this I always do myself and some extra I have had to do this year because our regular man has suffered a rupture and for the time being is not good for much. In the intervals of farm work we have had ~~one~~ two motor trips, of one day only, one to Peterham, Mass. and the Harvard Forest. There is quite a wonderful view-point on the main road north of the village from which one can see, on a clear day, Greylock, the southern Green Mountains, Monadnock

the last a good day's work in using with her
and I both working.

Love to you both for both of us - in hope
all goes well with you -

Chas

and Wachuset.

Yesterday was the tenth anniversary of our
marriage and by way of celebrating, her and I
have run away for a few days to this place, of which
we are both fond. This would be our third time,
if we went anywhere regularly for the summer.
It is the north western most township of Con-
necticut, touching New York on one side and Mass-
achusetts on another, and it lies in a par-
ticularly picturesque part of the Berkshire
hills, finer scenically, I think, than the more
famous portions of them in Massachusetts.

Some time next week I plan to get to
Cambridge again. I don't know just when,
for when I get home I shall have at least the
following chores to do before I get away again:-

1. Remove stone door and put screens on my
house
2. Cut out and weed four flower-beds and
about a hundred feet of walk.
3. Plant corn, lima beans and dahlias -

Weatherby, Charles Alfred. 1927. "Weatherby, Charles Alfred May 17, 1927."
