Vol. XL
p. 387 -
C. pedunculata
Runt
America Septentr.

HIBBARD HOUSE.

JACKSON, MICH.

Feb 25 - 1886

Vol. IV p 4130 - Tot 4119 -

My Dear Deane: We arrived at Lansing in proper order at 10 o'clock Saturday morning. Saturday I visited the College. Found things in good condition. Six of our College men are now off for another farmer's institute. It begins to-night. I shall not get back to Lansing until next Sunday or Monday.

I shall be very glad to get settled down at home again. Be it ever so far out West there is no place like home.

We had a pleasant trip home except our day in New York. It rained very hard all day there. I saw all of Olney's carices this time and also all in Herb. Torrey.

Question No. 1: Please look in Linnaea (The vols. stand against the glue room) and see if Boeckeler describes

Carex pedunculata Muhl. and
what-habitat-he gives. His writing
on *Carex* is in vols. 39, 40 + 41,
40 + 41 being bound together, with
a good index in the back of each
volume. I think that you will
find it - in vol. 41 if at all. Then
look in Boott's big work for *C.*
Baltzellii (General index in part
IV) and see what-habitat-he gives,
and also what-habitat-he gives
for *C. pedunculata*. I went-espec-
ially to know if he saw Drummond's
~~of *C. pedunculata*~~
spec. from New Orleans and what-
number the specimens bore. I am
in no hurry for answer.

Regards to Mrs. D. I shall expect
a letter from you on my re-
turn to (Lausiny).

Boott's *Carex*. Y

Vol 1 p 16.

Yours as ever,

C. Baltzellii.
