

Your no. 1 is *C. vestita*. No 2 is
C. Canescens. I am not clear on
that *Thaspium* business. The specimen
you send is the same as I have always
referred to the type. Your *C. panicca* is
O.K. Good. Can you spare 25-spec? You
will not be too late for *C. vulgaris*. Took a
tramp to-day and found enough *C. Hitchcock*
iana for set. Also found another new to this
locality - nothing less than the rare *C.*
Careyana!! 15 spec!! L.H.B. Jr. 6/14

Nothing but the address to be on this side.
