

^{may}
I received your April College, Mich. June 30,
^{from you} 1886

The specimens are *C. tentaculata* alright.
If I could do just as I want I should
like to distribute it in the condition you
have coll. and also in mature state. I will
make up about 13-sets and sell most
of them. I will get some good things
up north. I have made a list of 38 Carices
which I must find there. I shall make
sets for distribution of my entire collection there.
