TREASURER.

## Horticultural Department.

L. H. BAILEY, PROFESSOR OF HORTICULTURE.

Ithaca, N. Y., April, 1889

My Dear Deane:

I want to get seeds to sow of  
*Laphanus Laphainstrum*. Who can get-  
them for me?

Prof. Drainer writes me as follows  
regarding the elevation of Ripton: "The crest  
of the Green Mts. passes through the  
town of Ripton, reaching at one point to an  
elevation of about 3800 ft. The *Carex Norae-  
Aughiae* [*C. deflexa*] came from the vicinity of  
a small pond \*\*\* at an altitude of about  
1500 ft."

I have hired a student and have gone  
into my hay with a vengeance. It is now  
all in my herbarium, and every species, variety,  
and hybrid has a separate cover. I am  
proud of the pile, I assure you. Species like  
*C. stricta* I have been obliged to put into  
two covers.

Yours &

L. H. Bailey
