

If you don't find Gent. Herb.
I'll send you more.

Apr. 24, 1924

My dear Deane:

Thank you for letting me see the
charming letter from Mrs. W. W. Bailey.
How well I remember the call I
made on them in Cushing Street, so
many long years ago! The account
of *Veltheimia* is most interesting and
should be published in one of the
horticultural or botanical journals;
and as the plant is apparently
yet in bloom, a photograph should
be made. It is a liliaceous Cape
plant, seldom seen in cultivation. I
wish I could have some herbarium
material of it, if nothing more than a
leaf and two or three flowers.
The spring begins to show, and
the fields are calling.
Yours ever
L. H. Bailey

Bailey, L. H. 1924. "Bailey, Liberty Hyde Apr. 24, 1924." *Walter Deane correspondence*
