Oct. 25, 1925

My dear Deane:

It is an unusually good and complete lot of Rubus you send me, and I am under peculiar obligation to you for them. I appreciate the great pains you have taken to make such good specimens and to keep the records so straight. I hope to have them mounted next week.

Specimens in Rubus and Vitis have come in rapidly this year; of the former we have now mounted some 600 sheets since April, and there must be more of Vitis although I am still "shy" on New England material.

I shall always think of you when working over N.E. Rubus.

Yours faithfully,
L. H. Bailey
