

Melrose Mar. 3/95

Mr. Warren H. Manning

Dear Sir;

I have corresponded with some Agassiz members in regard to obtaining some information relative to the Natural History of the Fells Reservation. But as yet I can give you nothing more than you already know from Miss Zinggibal. I had inserted in our local paper a notice in relation to the subject, this may bear fruit.

Nearly all the Ferns which I have so far identified were found in the Fells, I shall endeavor ~~to~~ during the coming summer to cover the whole eastern section of the Fells.

I have an old blue-print of the "Geology of Middlesex Fells", prepared by Dr. Lincoln of Geneva N.Y. this you can have if it will be of any use to you.

Dr. Lincoln has covered the whole territory named, he is very thorough, he takes nothing for granted, and if you want any

help on geology, perhaps he will aid you. 2
He is usually around Boston during July
and August. (He teaches in Geneva.)

I will bring the subject mentioned in your
letters of Jan 14th & 19th before the Agassiz
State convention in May, perhaps you could
be present at that meeting.

I wrote to Reading, and they referred
me to Mr. W. H. Manning as the only active
member who had belonged to Reading Chap-
ter.

I am arranging my Lichens in boxes and
trying to identify them.

The most striking are the;
Umbilicaria, there are but two species, usu-
ally found together the Dillenii and pustula-
ta. Of the Gladiomias I have cristatella
pygidata uncialis and two or three uncertain.
there are several of the Parmelia. etc. etc etc
My note book is arranged thus.

Trib. I

Family Parmelici

Genus Theloschistes

Species parietina

Locality marblehead mass.
near the Fort.

Thallus foliaceous-reduced.

Surface

color. chrome yellow.

Apothecium

disk chrome yellow

exciple

Rhizoids many

spores

Habitat on rocks, near salt
water.

I will send you a list of Ferns if you will
please state which nomenclature you want used.
^{The old or new}

Miss Caroline M. Crawford - Hotel Dartmouth
Roxbury Mass. has done more or less botanical
near Boston, perhaps she can aid you some.

With best wishes for your success

I am

yours truly

Geo. T. Ruy.

#22 Adams St.

Milrose
