

Delaware Mine, July 13. 1889

Mr. Walter Deane

My Dear Sir:

I send you some fruit of
Viola striata ~~Witt~~ *V. Canina* L. var. *puberula* Wat.
I went home on the 4th on purpose to
get it for you, as that was the
only place I knew where it grew.
If I didn't go then I knew I would
not be able to get any.

A. ~~Common~~ *Viola Canina* L. var. *puberula* Wat.
May + July 4 1889. Clifton, Keweenaw Co., Mich.
Coll. O. A. Farwell

B. *Viola striata* Witt.

May + July 4th. 1889, Clifton, Keweenaw Co.,
Mich. Coll. O. A. Farwell

I haven't any labels here with me so I
send data this way.

Did I send you flowers of *V. striata*?
I have forgotten, I am in doubt whether this
is what I call it or whether it is a white

flowered fern of *N. Canina* var
Muhlenbergii, I think I am right
though as it is the only place I
have ever found it and it ~~has~~ kept its
characters good for at least five years, I
have collected it every year for that length
of time. Please let me know what you
think about it. Have you found
a name for that moss-like plant?²
I believe I have found 3 more new carices
here this ~~spring~~^{summer} & when I was home on the 4th
C.C. *livida*, *novae-anglae*, & *deflexa*.

Yours Truly
O. A. Farwell

P.S. July 22, 89, I am back home
again and my permanent address
will be Phoenix, Mich.

O. A. Farwell

Farwell, Oliver Atkins. 1889. "Farwell, Oliver Atkins Jul. 13, 1889." *Walter Deane correspondence* –.
