Oct. 10th, 1892

My dear Mr. Davenport:

Your letter of the 10th inst is at hand. I am glad to see that you have gone over the Index carefully. I do not intend in this Index to express any opinion upon any of the species but is simply to be a record of the new species or combinations made during the year. I remembered your note in the Garden & Forest. But is that really publication of the combination "*Notholana Schaffneri*" If so I would not have known from the text to whom to give the credit of the species?

I wish you would keep me informed of any new species or combinations that you may make in the future.
