Mr. George E. Davenport,
#67 Valley St., Medford, Mass.

My dear Mr. Davenport:-

Your letter containing determinations of Nelson's ferns has been received. I thank you very much for your promptness in determining these plants. Yes, you can use the Agricultural Department franks in returning the plants. I do not think there are any duplicates of #784, but if there is you are welcome to them. Dr. Palmer has collected some ferns about Aca-pulco. I suppose you would be willing to determine them. I will try and get you a set of duplicates.

Yours very truly,

J. H. Rose

Assistant Botanist.
