

New York, Feb 13 - 1856.

Dear Boston - Your letter -
(the letter of yesterday - enclosing
a draft) have been received -
You had a good right to half
the proceeds from the Whipple
concern - for you did help on
more of the work. Well - since
you want take all I sent - I
will have something to remit
to make - You ought to
consult your good dame in
these matters - I will if if
you don't take care of your
own interest - better make
Contract - about future Repats -

with her! We will arrange
about the Boundary plants &
we shall have the money

When you hear from Drayton
I will make out an account
for those drawings -

Prof. Pierce is coming on
here next Friday - & you
may send anything for me
(if not too large) by him.

I have the title of Emeritus
Prof. of Bot. & Chemistry in
the College of Phys. & Surg. &
the Faculty wish me to give

half a dozen lectures on Botany
towards the end of the present
course. I have consented to do
so. Is it advisable for me to
retain a certain connection with
the College. Can you help me
out with a few illustrations, especially
for the first lecture. I have
nothing but my old sketches &
some sections of wood, fruits &c.
Try what you can do, & send to
me within a week -

I will write more about Botany
in a few days -

Yours ever
J. Torrey

Torrey, John. 1856. "Torrey, John Feb 13, 1856." *John Torrey letters* –.
