## NOTE

A NEW SYNONYM AND LECTOTYPE DESIGNATION  
IN EPHYDRIDAE (DIPTERA)

The purpose of this note is to clarify the nomenclature of, and to designate a lectotype for *Notiphila solita* Walker. I am doing this now so that the proper name will be used in a forthcoming paper on the biology of this species prepared by Mr. J. D. Busacca and Dr. B. A. Foote, Kent State University, Ohio.

*Notiphila solita* Walker

*Notiphila solita* Walker, Insecta Saund., 1852:406. LECTOTYPE ♂ (here designated) (BM(NH)), labelled: "68·4/US/solita/United States, W. W. Saunders. B.M. 1868-4/LECTOTYPE *Notiphila solita* Walker by W. N. Mathis."

*Notiphila vittata* Loew, Smithson. Misc. Coll. 1862, 6(141):136. Holotype ♀, MCZ), labelled: Dista-Columb./Loew Coll./vittat. ♀/Type 11127."  
NEW SYNONYMY.

Through the courtesy of Mrs. Janice C. Scott (MCZ) and Dr. Brian H. Cogan (BM(NH)), I have studied both of the specimens indicated above to confirm their conspecificity.
