Summer with no warm weather till
now when it is close & hot. The crops
are good, Apples prodigiously abundant.

I am indeed obliged to you
for letters in regard to Brew. - he is ~~here~~ &
working out himself for employment. - I am
sure America is the best field & with his
industry & steadiness he should be a useful
man in a new country. I am independent
with Alphey; & Lambræus ^{wrote} 1871
that if he knew what his qualifications were
he might find him a place. His works
Mrs I should like very much, as I thought
very highly of L... I am extremely grateful to
you kind offer of securing him in Boston.
His going would be an additional inducement
for me to go away next year. I had the offer

of the party which has just left for Canada, but
I will not go. I will go to Mr Hooker.
