

Eichler

Berlin, W.

Potsdamer-Str. 75<sup>½</sup>

Botanischer-Garten.

27. July 79.

Dear Professor Gray

Many thanks for your book on structural botany. It is a very fine work, as much distinguished by the clear exposition and abundance of material as by the numerous fine drawings. It gave me particular satisfaction to observe, that there are here and there of my diagrams.

I see by your card that you have returned from your Allegheny-journey and I hope you have had a good botanical harvest. In the mean time Mr. Wilson has brought me

see your letter; the young man has  
pleased me very much and seems  
to be a good botanist already and  
very zealous in his studies. He  
takes part in one of my lectures  
and works with Professor Haworth;  
I regret of not being able to  
assist him more in his studies, on  
account of my still suffering eyes.

Some time ago two new fascicles  
of the Flora Brasil. have been dis-  
patched to you and I inclose the  
respective bill. There will be <sup>only</sup> two  
more still in a year or about, if  
the Brazilian government refuses  
further publication, about which  
affair I am still without definite  
answer. Believe me, dear Professor  
Gray, ever yours very truly  
A. W. Eichler
