

Berkeley, Cal. Dec. 18, 1877.

Dear Dr. Gray:-

Mrs. Curran not being acquainted with any "Myosaurus alopecuroides, Curran," has passed your letter over to me. I therefore enclose a specimen of the desideratum.

From your remark to Mrs. Curran, that you have returned to the Polyptalae, I should infer that that ~~the~~ volume of the Syn. Fl. is now to be looked for.

I should be ashamed to repeat so soon my question about a possible new Botany of this coast from your side of the continent, had not Dr. Wm. Blakeman & Taylor's agent in S. Francisco lately told me that Mr. Coulter, having finished "Colocals" is now engaged on a similar work for

Pacific states, or California.

If this should be true, I  
ask that you tell me so.

I will at once desist from  
the pursuit of my own under-  
-taking, if it is so.

Yours Very Truly

Edw. L. Greene.

Greene, Edward Lee. 1886. "Greene, Edward L. Dec. 18, 1886." *Edward Lee Greene letters to Asa Gray*
